Iris with her warm voice, has for years been a popular guest at jazz clubs, festivals, concerts and (company) parties. She has built up a varied program from dixieland to the most beautiful standards of the American Songbook.

The program of Iris & Friends guarantees an up to date interpretation of the mainstream idiom. The friends of Iris consider accompanying her in a dynamic way a challenge. But every member of the band gets plenty opportunity as a soloist. The concerts offer a very varied program of vocal and instrumental songs, whereby the show element is certainly not forgotten.

Not only Iris but also the Friends have earned their reputation in jazz and have played together for quite some time.

By his excellent education in music and enormous experience he controls all styles in jazz music and pleases the public with his boogie woogie and stride piano playing.

Bassplayer Frans Tunderman is known for his enormous drive and beautiful solo's. He further excels in experience. A.o. he has accompanied Greetje Kauffeld, The Deep River Quartet and the Jubilee Tour of John Engels. He further plays often with pianist Cor Bakker.

Pim Toscani started his career with different dixieland bands. Freelance he formed part of formations like with Ray Kaart and Ruud Brink.
